ABSTRACT

The term blogging and blog is a latest buzzword in modern society as more people started reading and writing blogs online. There is a constant increase in the number of people turned in the blogs way and it is a good medium for everybody to write and publish their opinions online. Venta Blog is a blogging application which helps individuals and organizations to create and manage articles in a user friendly way. It enables everyone to create, manage and maintain their individual blogs with a pool of people working on their own blogs. We have created this project to help students to manage their day to day notes taking and writing and updating their schedule accordingly.
